

M'ADOO URGES U.S. CUT TAX BILLION TO HELP INDUSTRY

FORMER SECRETARY OF TREASURY, AND HIMSELF A PRESIDENTIAL CANDIDATE, SAYS EXCISES SERIOUSLY HAMPER BUSINESS.

Washington, March 5.—An immediate billion dollar reduction in federal taxes was suggested by a statement issued here yesterday by William G. McAdoo, former secretary of the treasury. The present tax burden is too great, said Mr. McAdoo, being an infliction suffered by business. Mr. McAdoo proposed that creation of a tax to establish a sinking fund for retirement of the war debt which was recommended by former Secretary Glass to begin with in the fiscal year 1929, be postponed for two years, and that the debt of European nations in transit to Europe be in position to pay its interest charges.

The financial policies of the nation as embodied in future congressional legislation, "said Mr. McAdoo, "should realize the utmost economy in expenditure and ought well nigh to have term funds \$1,000,000,000 per annum for two years of the amount now raised by taxation."

Under the new tax, it is estimated a 1 per cent sinking fund in revenue bonds now outstanding, is to be collected beginning with the fiscal year 1929. This might well be modified for at least two years, and would reduce the tax burden by \$200,000,000 annually.

There too, in the debt scheme, is a nose over us which may amount to about ten billion dollars. If the economic restoration of Europe had proceeded far enough so that Europe could now pay interest on this debt she will be able to give up \$200,000,000 from 1929, "said Mr. McAdoo. But that is not now available.

Way not found that unusual advances the day when it will become high in his pocketbook, for two weeks the establishment of a sinking fund and finding the deferred payments of European interest, we should cover \$8,000,000 of the total debt in which our taxation must be raised. By discontinuing the sinking fund, early bonds for retirement, under the vision of existing law, these would be reduced to a large burden now reflected in the debt due, and which otherwise will have to be made up by taxation.

It would seem that reduction of our tax bill for the next two years in this manner could be accomplished and that it would invigorate the claims of additional funds at the instant of question in its broad relation to our general economic welfare.

The immediate burden of taxation is too great. It's having an undesirable effect on business. It is a contributing factor of large proportions in the high cost of living. The only policy to do is to utilize every effort to put to throttle inflation. It is left to the scientists and theologians.

In view of the increasing demand in our export trade, with one notable reduction in the volume of business in the country, it will be an doubly important interests and to reduce taxation to offset that business may not have to carry an enormous tax burden throughout the period of experiment.

IF HAIR IS TURNING GRAY, USE SAGE TEA

Here's Grandmother's Recipe to / Darken and Beautify Faded Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur restores its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost ready for use. It is called "Wey's Sage and Sulphur Compound". This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wey's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the hair has disappeared, and after another application it looks beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.
